## PROFESSIONAL EXPERIENCE

### Nasdaq

R&D Software Engineer- Capital Market

Mumbai  
May, 2022 to Aug, 2023

- Built and enhanced trading and risk systems across Equities, FX, Commodities, IRD and CRD markets.
- Developed valuation, pricing, PnL and risk analytics modules within Calypso.
- Collaborated with front-office stakeholders to support investment and trading workflows.
- Designed and implemented new FX trading functionality improving execution efficiency.

### Independent Portfolio Manager | VST Capital

Portfolio Management | Private Wealth

July, 2022 to Present

- Manage ₹6.5–6.9 crore across family and close-network portfolios spanning equities, mutual funds, SIPs, and real estate investments.
- Conduct investment research and asset allocation across multiple asset classes to support long-term wealth creation.
- Evaluate investment opportunities through fundamental analysis, valuation, and market research.

### Aditya Birla Capital

Portfolio Management Summer Intern

Delhi  
June, 2026 to Present

- Conducted equity research on the NBFC sector.
- Supported client risk profiling and portfolio allocation.
- Assisted in evaluating equity, debt, mutual fund and alternative investment opportunities.
- Gained exposure to derivatives, foreign exchange and live market analysis.

### Finlatics

Capital Markets Associate - Internship

Aug, 2025 to Oct, 2025

- Built DCF models and scenario analyses.
- Developed derivatives strategies using option Greeks.
- Conducted equity research using technical and momentum-based frameworks.

## INVESTMENT BANKING & VALUATION EXPERIENCE

### J.P. Morgan Investment Banking Virtual Experience Program

M&A Analyst

Sep, 2025

- Built institutional-grade DCF models incorporating WACC, FCFF, and CAPM with rigorous scenario and sensitivity testing.
- Executed strategic target screening by evaluating financial health, market positioning, and cross-sector synergies.
- Authored high-impact investment memos detailing valuation outcomes, trading comparable valuations, strategic rationales, and execution roadmaps.

## SELECTED FINANCIAL PROJECTS

### Kotak Mahindra Bank Robotic Process Automation (RPA) Project

Jan, 2026 to April, 2026

- Identified operational inefficiencies and architected scalable automation frameworks, projecting 30-80% cost savings (~₹5.7 Cr+).
- Developed a rigorous ROI model with a 3–6-month payback period to justify capital expenditure and operational scalability.

### Quantitative Equity Analysis (Python Project)

Nov, 2025

- Developed multivariate regression and volatility frameworks to analyze FAANG+ stock dynamics and risk-return profiles.
- Benchmarked Apple against peer-set tech giants using statistical trend analysis and relative valuation methods.
- Deciphered return patterns and risk dynamics across diverse market cycles to identify high-alpha investment opportunities.

## EDUCATION

### UPES

Jul, 2025 to May, 2027

MBA in Strategic Financial Management (EY Collaboration)

CGPA: 8.52/10
